User Guide AB Invest Platform

Version 1/2021

Welcome to stocks investing with AB Invest. Here are some quick tips to help you get started.

The platform can be accessed by downloading **AB Invest mobile** application on tablets or smartphone.

Alternatively it can be accessed through a web browser by following the link: <https://brokerage.ab-invest.net/>

Minimum System Requirements:

Device type	Operating systems	Browsers
PC	Windows 7 Windows 8 Windows 10	IE11 Firefox 52+ Chrome 58+ Edge
MAC	OSX 10.11+	Safari 10.11+ Chrome 58+
Chrome Book	Chrome OS version 61+	Chrome 61+
Linux PC (Ubuntu)	Linux	Chromium 55+ (Firefox NOT supported)
Tablet	iOS11+ Android 4.1+	Safari 10+ Chrome 55+
Smartphone	iPhone – iOS11+ Android 5.1+	Safari 10+ Chrome 56+

Please note that Private Browsing modes are not supported

1. First start by entering your User ID and password to log-in to your account.

4. To create a new watch list.

Click on **Watchlists** > + New list

The screenshot shows the AB INVEST trading platform interface. At the top left is the AB INVEST logo. To the right is the word "TRADING". Below the logo, there are three tabs: "Watchlists", " Screener", and " Alerts". The "Watchlists" tab is active, showing a dropdown menu for "Stocks US". The dropdown menu is titled "Select Watchlist" and contains two options: "+ New list" and "EQ Stocks US".

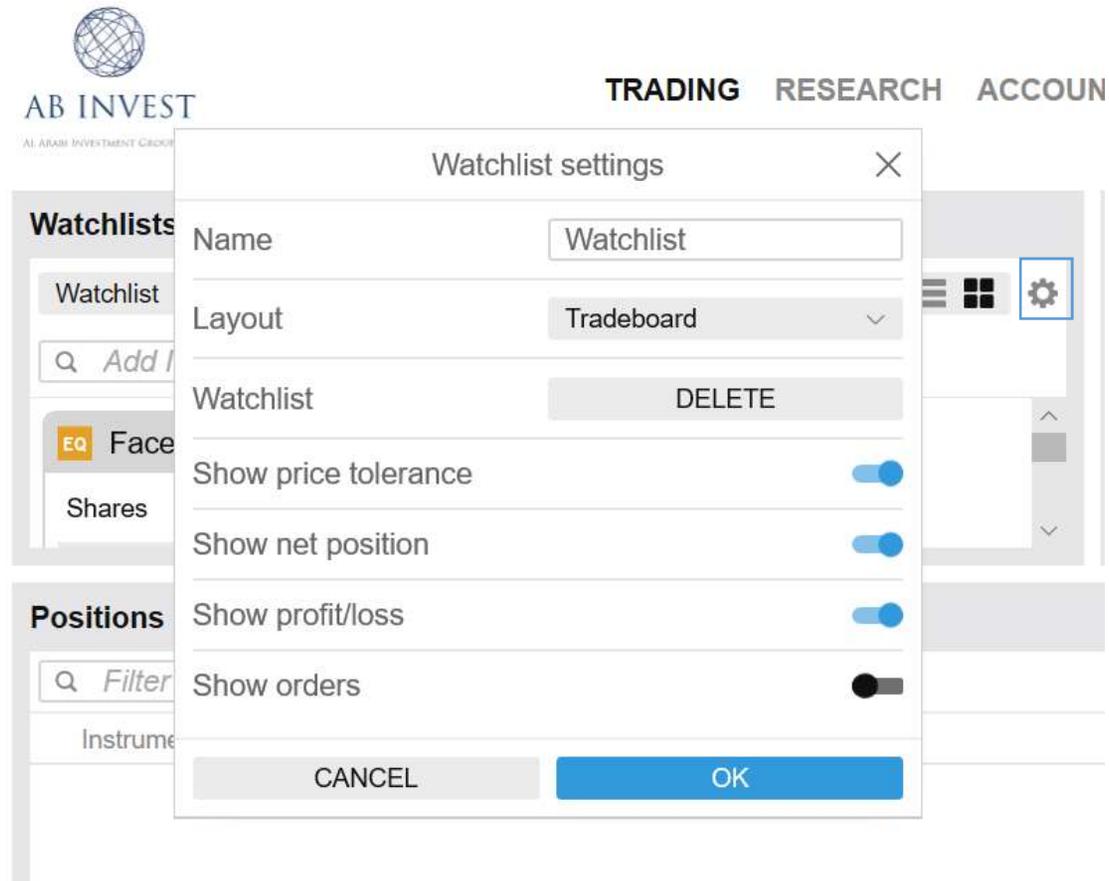

5. Click on **Add Instrument** and type the name of the company you are looking for in the search field. For example: "Facebook". After clicking on the instrument it will be added to your custom watch list.

The screenshot displays the AB INVEST trading platform interface. At the top left is the AB INVEST logo and the text "AL ABAM INVESTMENT GROUP CO.". To the right are navigation tabs for "TRADING", "RESEARCH", and "ACCOUNT". Below these is a sub-header with "Watchlists", " Screener", and " Alerts". A search bar contains the text "face". Below the search bar, a list of search results is shown:

Instrument	Exchange	Market
+ EQ Facebook Inc. FB:xnas	NASDAQ	Stock 
EQ Facedrive Inc FD:xtsx	TSX Venture Exchange	Stock 
EQ FacePhi Biometria SA FACE:xmce	BME Spanish Exchanges	Stock 

6. You can adjust the layout by clicking on the settings button.

7. Double click on the orange EQ button next to Facebook in order to open the Trade Ticket.

OrderTypes

Order	Type	Description
Limit Order	Order to buy	An order with a limit price, executed in this price or in the best price below of the counterparty
	Order to sell	An order with a limit price, executed in this price or in the best price above of the counterparty
Market Order	MKT order to buy/sell	An order without a limit price executed in the best price of the counterparty
Market on Close	MOC order to buy/sell	A round-lot order to be executed at (or as near to as practical) the close of the market
Day Order	Day order to buy/sell	A buy or sell order that, if not executed, expires at the end of the trading day on which it was entered
Good till Cancel	GTC order to buy/sell	An order to buy or sell that remains in effect until it is either executed or cancelled (also known as an “open order”).
Good till Day	GTD order to buy/sell	An order to buy or sell that remains in effect until it is either executed or expired at the end of the day selected

Order	Type	Description	Example	Result
Stop Order	stop order to buy	Becomes a market order when the security trades at, or above, the stop price after the order is represented in the trading crowd	Stop Buy AAPL @ 115	If apple reaches 115 the order is activated and becomes Buy @ market
	stop order to sell	Becomes a market order when the security trades at, or below, the stop price after the order is represented in the trading crowd	Stop Sell AAPL @ 115	If apple reaches 115 the order is activated and becomes Sell @ market
Stop Limit	stop order to buy	Becomes a limit order at the limit price when the security trades at, or above, the stop price after the order is represented in the trading crowd	Stop Limit Buy AAPL @ 115	If apple reaches 115 the order is activated and becomes Buy @ 115
	stop order to sell	Becomes a limit order at the limit price when the security trades at, or below, the stop price after the order is represented in the trading crowd	Stop Limit Sell AAPL @ 115	If apple reaches 115 the order is activated and becomes Sell @ 115
Limit on Close	LOC order to buy	A round lot order with limit price eligible for closing auction only, executed at this price and or below depending on closing market price	LOC Buy AAPL @ 115	The order is only activated in the closing auction and will buy Apple @ 115 or below
	LOC order to sell	A round lot order with limit price eligible for closing auction only, executed at this price and or above depending on closing market price	LOC Sell AAPL @ 115	The order is only activated in the closing auction and will Sell Apple @ 115 or above

Order	Type	Description
Trailing Stop	Trailing stop order to buy	A buy trailing stop order sets the stop price at a fixed amount above the market price with an attached "trailing" amount. As the market price decrease, the stop price decrease by the trail amount, but if the stock price rise, the stop loss price doesn't change, and a market order is submitted when the stop price is hit.
	Trailing stop order to Sell	A sell trailing stop order sets the stop price at a fixed amount below the market price with an attached "trailing" amount. As the market price rises, the stop price rises by the trail amount, but if the stock price falls, the stop loss price doesn't change, and a market order is submitted when the stop price is hit.

Trailing stop orders are designed to allow an investor to specify a limit on the maximum possible loss, without setting a limit on the maximum possible gain.

Buy trailing stop orders are most appropriate for use in falling markets.

Sell trailing stop orders are most appropriate for use in rising markets.

Trailing stop example:

You have purchased 100 shares of XYZ for \$66.34 per share (your Average Price) and want to limit your loss. First create a SELL order, then select TRAIL in the Type field and enter 0.20 (for example) in the Trailing Amount field. The trailing amount is the amount used to calculate the initial Stop Price, by which you want the limit price to trail the stop price. You submit the order. The current market price of XYZ is \$62.46 and the initial stop price is calculated as \$62.26, or \$62.46 – the trailing amount of 0.20. As soon as you submit your order, the price of XYZ starts to rise and hits \$62.66. The trailing stop price has adjusted accordingly and is at \$62.46, or \$62.66 – the \$0.20 trailing amount. Suddenly the market price of XYZ drops to 62.56. Your stop price remains at 62.46. If the market price continues to drop and touches your stop price, the trailing stop order will be triggered, and a market order to sell 100 shares of XYZ will be submitted. The market price of XYZ continues to drop and touches your stop price or 62.46. A market order to sell 100 shares of XYZ at 62.46 is submitted and filled. You have limited your loss to \$388.00.

Further Notes:

- A round lot is a standard unit of securities to be traded on an exchange it can range anywhere from 1-100 shares, depending on the exchange. A round lot is sometimes referred to as a normal trading unit.
- Stop order, also referred to as a stop-loss order is an order to buy or sell a stock once the price of the stock reaches the specified price, known as the stop price. When the stop price is reached, a stop order becomes a market order.
- A limit order is visible to the market and instructs your broker to fill your buy or sell order at a specific price or better. A stop order is not visible to the market and will become a market order once a stop price has been met.

- A stop order, also referred to as a stop-loss order, is an order to buy or sell a stock once the price of the stock reaches a specified price, known as the stop price. When the stop price is reached, a stop order becomes a market order. A buy stop order is entered at a stop price above the current market price. Investors generally use a buy stop order in an attempt to limit a loss or to protect a profit on a stock that they have sold short. A sell stop order is entered at a stop price below the current market price. Investors generally use a sell stop order in an attempt to limit a loss or to protect a profit on a stock that they own.
- Before using a stop order, investors should consider the following:
 - The stop price is **not the guaranteed** execution price for a stop order. The stop price is a trigger that causes the stop order to become a market order. The execution price an investor receives for this market order can deviate significantly from the stop price in a fast-moving market where prices change rapidly. An investor can avoid the risk of a stop order executing at an unexpected price by placing a stop-limit order. A stop-limit order includes a limit price that requires the order to be executed at the limit price or better – but the limit price may prevent the order from being executed.
 - A stop order may be triggered by a short-term, intraday price move that results in an execution price for the stop order that is substantially worse than the stock’s closing price for the day. Investors should carefully consider the risk of such short-term price fluctuations in deciding whether to use a stop order and in selecting the stop price for an order.
- A stop-limit order is an order to buy or sell a stock that combines the features of a stop order and a limit order. Once the stop price is reached, a stop-limit order becomes a limit order that will be executed at a specified price (or better), however execution is not guaranteed. The benefit of a stop-limit order is that the investor can control the price at which the order can be executed.
- Before using a stop-limit order, investors should consider the following:
 - As with all limit orders, a stop-limit order may not be executed if the stock’s price moves away from the specified limit price, which may occur in a fast-moving market.

- The stop price and the limit price for a stop-limit order do not have to be the same price. For example, a sell stop limit order with a stop price of \$3.00 may have a limit price of \$2.50. Such an order would become an active limit order if market prices reach \$3.00, however the order can only be executed at a price of \$2.50 or better.
- As with a stop order, a stop-limit order may be triggered by a short-term, intraday price move that results in an execution price for the stop order that is substantially inferior to the stock's closing price for the day. Investors should carefully consider the risk of such short-term price fluctuations in deciding whether to use a stop order and in selecting the stop price for an order.

Terms of Use

These Terms set out the terms on which you can use our Online Trading Service to trade Securities and obtain information services (the Services). You agree that these Terms are applicable to all trades executed online via the Online Trading Service platform, through the Website, the SC Trading application for mobile phones and tablets or such other facility provided by us. You agree to use the Online Trading Service only in accordance with these Terms.

Agreement

By using the service, you are confirming your consent to be bound by the terms of this Agreement. If you do not agree, AB Invest is not willing to provide you with access to the service and you should immediately discontinue your use of the service. You agree that AB Invest may modify this Agreement at any time in its sole discretion and without prior notice to you. Such changes will be posted by any means and will be effective upon posting. You should review this Agreement periodically to ensure familiarity with its then-current terms and conditions. Your continued use of the service shall constitute your acceptance of this Agreement and your continued use of the service following any modification of this Agreement shall constitute your acceptance to the Agreement, as amended. If you do not agree to the changes, you must notify AB Invest in writing or by telephone of your refusal and discontinue your use of the service.

Use of the Services

For the purpose of accessing and using the online trading service, we grant to you a non-exclusive, non-transferable personal license in relation to the Software. We do not transfer title to, nor grant any interest in the Software to you.

By using the above-mentioned service and the software provided by AB Invest, you acknowledge and agree that:

It is prohibited to use, store, reproduce, display, modify, sell, publish, transmit and distribute, or commercially exploit the service without prior written permission of AB Invest and/or any third-party Information Provider(s); AB Invest and/or any third-party Information Provider(s) reserve all rights to proprietary information (including, but not limited to, all intellectual property rights such as; patents, trademarks, service marks, copyrights, database rights, topography rights, industrial design, know-how, trade secrets, trade names, logos, designs, symbols, emblems, insignia, slogans, drawings, plans and other identifying materials, in all forms whether or not registered or capable of registration and any other

rights relating to intellectual property in accordance with the applicable laws,) subsisting in or relating to the service. You shall not use the Information for any unlawful or unauthorized purpose. The use and interpretation of the service requires skill and judgment, and you shall at all time exercise your own judgement in the use of the service. You are responsible for all statements made and acts or omissions that occur while your user identification name (or "User Name") and passwords are being used. You are responsible for protecting and securing your User Name and password from unauthorized use and disclosure. If you become aware of, or believe there has been, any breach of security for any of your information stored, such as the theft or unauthorized use of your User Name, password, or any other information, you will notify AB Invest immediately. The service and the software have been prepared for informational purposes only without regard to any particular user's investment objectives, financial situation, or means, and AB Invest is not soliciting any action based upon it. This material is not to be construed as a recommendation; or an offer to buy or sell; or the solicitation of an offer to buy or sell any security, financial product, or instrument; or to participate in any particular trading strategy in any jurisdiction in which such an offer or solicitation, or trading strategy would be illegal. Certain transactions, including those involving complex financial instruments, give rise to substantial risk and are not suitable for all investors. The fact that AB Invest may have made the services available to you constitutes neither a recommendation to enter into a particular transaction nor a representation that any product described is suitable or appropriate for you. Many of the products/securities described involve significant risks, and you should not enter into any transactions unless you have fully understood all such risks and have independently determined that such transactions are appropriate for you. Any discussion of the risks contained herein with respect to any product should not be considered to be a comprehensive disclosure of all risks or a complete discussion of the risks which are mentioned. You should not construe any of the material contained herein as business, financial, investment, hedging, trading, legal, regulatory, tax, or accounting advice.

Termination

AB Invest may exercise full discretion in modifying or discontinuing any part or whole of the service at any time without cause or prior notice.

Disclaimer of Warranties

AB Invest and the Information Provider(s) expressly disclaim all warranties of any kind, express or implied, including without limitation any warranty of merchantability, fitness for a particular purpose or non-infringement.

Although the service provided has been obtained from sources deemed to be reliable, the service are provided “AS-IS”, and AB Invest and/or any third-party Information Provider(s) provide the service without responsibility for accuracy and correctness. By using the service you agree that errors and/or omissions contained in such information shall not be made the basis for any claim, demand or cause of action against AB Invest or any Information Provider(s).

Limited Liability

Neither AB Invest nor any of its third-party Information Providers shall be liable for any direct, indirect, incidental, special or consequential damages arising out of or relating to this Agreement or resulting from the use or the inability to use the service, including but not limited to damages for loss of profits, use, data or other intangible damages, even if such party has been advised of the possibility of such damages.

Miscellaneous

By agreeing to the Terms of Use of the service and the software you acknowledge and agree that AB Invest, in the interest of security, reserves the right to record all telephone conversations, internet conversations including chat, and any meetings between you and AB Invest.

You furthermore agree that AB Invest reserves the right to monitor your use of the service and that the resultant information may be used by AB Invest for its internal business purposes.

Any claims arising from this Agreement will be governed by and construed in accordance with the laws of the Hashemite Kingdom of Jordan and shall be subject to the exclusive jurisdiction of the Jordanian Courts.

This service can be accessed worldwide however the information is related to AB Invest and is not specific to any entity of AB Invest. All clients will directly engage with AB Invest and all client agreements will be entered into with AB Invest and thus governed by the Jordanian Law.
